HAWAII'S CLOUD SOLUTION

SERVPAC'S LOCAL CLOUD SOLUTION

Business Cloud Solutions Made Easy

Virtualize your data infrastructure with Servpac's Local Cloud solution. All the flexibility and scalability of the cloud but with higher performance and advanced security.

Cloud Benefits:

Flexibility

Quickly scale your virtual infrastructure to meet business demands

Reliability

Backup your data at regular frequency to multiple locations

Security

Advanced encryptions, firewalls, access controls and 24/7

Multi-Cloud Integration

On-ramp migration to public cloud providers: Amazon Web Services, Microsoft Azure, Oracle Cloud Infrastructure and Google Cloud

Cost-Effective

No costly upfront hardware or licensing fees, plus save on ongoing operational expenses

Agility

Access your cloud network whenever and wherever you work

Customization

Create unique data environments and set user access controls

Carrier-Neutral

Fast connection to your cloud through Hawaii's top fiber carriers

5 EASY STEPS TO CLOUD MIGRATION

1. Assessment:

Define current state and ideal setup.

2. Design/Proof of Concept:

Outline proposed setup, including active directory.

3. Data Migration:

Migrate documents and files into the cloud.

4. Application Migration:

Migrate business applications into the cloud.

5. Performance Optimization:

Testing and performance optimization.

Cloud Specifications

- Fully managed VMWare, hardware, software, deployment and maintenance
- Direct private fiber connection to securely connect your office with our cloud
- High performance computing resources
- High security industry compliance including SSAE-18, Soc 2 Type 2 and HIPAA
- High performance SSD-only storage
- Data encryption compliance with FIPS-140 using distributed key management systems

The Servpac Advantage

Local Environment

- Physical hardware is stored in Servpac's MTP Data Center, the most naturally secure facility in Hawaii
- Direct local fiber connection enables you to access data with low latency and higher reliability

Business Flexibility

- Access multiple turnkey solutions as your business scales
- No contract restrictions on updating your data infrastructure between Servpac's cloud and/or colocation solutions

All-in-One Vendor

- Seamless access to all your business needs with Servpac VoIP Phones, Fiber Internet and Manages Services
- Reduce the hassle of dealing with multiple vendors
