POWER YOUR NETWORK WITH HAWAII'S FASTEST AND MOST RELIABLE FIBER INTERNET

Today's businesses rely on the internet to perform their daily operations. From cloud based applications, to hosted email, to file sharing – you need a reliable internet connection that can keep up with your pace of work.

Servpac's dedicated fiber internet is designed for businesses, offering unmatched speed, security and reliability.

More than 200 miles of fiber deployed	More than 400 buildings with fiber activated
---	--

Our fiber network connects to major commercial areas throughout Oahu and offers a reliable and scalable service your business can depend on.

We've been using Servpac for phone and internet service for over 3 years. We have been pleased with their technical support and account management. They have worked closely with us and adjusted their services as our business needs changed.

– Noel F., VP of Operations

THE SERVPAC ADVANTAGE

DEDICATED CONNECTION

Dedicated internet connection for enhanced performance and security.

SYMMETRICAL SPEED

Symmetrical upload and download speeds that supports all applications.

GUARANTEED PERFORMANCE

Servpac manages its own fiber network and fiber optic cables for reliable performance.

FASTER CLOUD ACCESS

Fiber internet connection offers low latency and access options to Servpac's private Cloud offerings.
