

HAWAII'S CLOUD SOLUTION

Servpac is the premier choice for cloud-based business solutions in Hawaii. We focus on simplifying the complexities of your telcom, IT and network operations through best-in-class technology and support management.

Whether you are a small to medium sized business looking to grow your operations, or a large-scale enterprise looking to free up valuable IT resources, we can create a customized solution to fit your needs.

THE SERVPAC ADVANTAGE

Spend less time dealing with multiple vendors

As Hawaii's ONLY all-in-one business solution, we enable customers to focus less on vendor management and more on their business.

Grow your IT team - without the overhead

At Servpac, we treat each customer like we're an extension of your team. You get 24x7x365 access to highly trained engineers, customer success managers and support specialists.

Work with a local business that understands you

Hawaii is our home, not just another market we serve. We understand the unique challenges local businesses face and continue to invest in Hawaii's digital landscape.

CERTIFICATIONS & AWARDS
